FLOOR CLEANING VERY EASILY

- 1 Put a **Spraypro-Stick** together with a **Holder SMH40**, attach a **cloth cover EWM40** to the mop head.
- 2 Fill the measuring cup with 500 ml. cold water.
- 3 Unscrew a **dispensing head FF2973** of the **P31501 Planta Clean** Bottle, after squeeze the bottle until a dispensing head is filled. After releasing a bottle it would be measured automatically.
- 4 This amount of 5ml in the measuring cup should be emptied with water
- 5 Mop the floor (using the "8" cleaning technique). If heavily stained, use a new **EWM40** cloth cover.

Open a Spraypro-Stick at the end of the stalk.

Fill a cleaning solution into a measuring cup and close it off.

To spray this cleaning liquid over the floor, press shortly a level. (a time-consuming mop wringing out of the mop). You don't have to fill up and empty heavy mop buckets.

SPECIAL CLEANING

Protection gloves
